PETITION FOR SEWER SERVICE AND EXTENSION OF SEWER LINES

TO: Board of County Commissioners of Medina County
County Administration Building
Medina, OH

I, the undersigned, owner of land to be benefited by the wastewater collection system described below opposite my name, hereby petition the Board of County Commissioners of Medina County, Ohio, pursuant to Ohio Revised Code Section 6103.11 to provide for the construction, maintenance and operation of local sanitary sewer lines and appurtenances thereto along the public highways adjacent to my property as part of the Medina County sanitary sewer system and respectively agree to pay the cost and maintenance of such improvement.

I further hereby acknowledge that I understand the cost to be paid to the County for the sewer line will be \$4,500.00 for each residential unit. In addition, I will also be responsible for the cost of a lateral connection to service my property.

With the signing of this petition I also tender the sum of \$100.00 as a deposit toward the cost of the sewer line. It is understood that after reviewing this petition and other petitions, that the County will proceed with construction of a sewer line to service my property if it is economically feasible. I further understand that my deposit hereby tendered will be applied to the construction charge for my property. It is also understood that if, after six (6) months of review, the Sanitary Engineers Office decides not to proceed with the project, that my deposit will be returned upon my submission of a written request for a refund.
